Second street.

THE LAXATIVE OF

KNOWN QUALITY

There are two classes of remedies: those of known qual-

ity and which are permanently beneficial in effect, acting

gently, in harmony with nature, when nature needs assist-

ance; and another class, composed of preparations of

unknown, uncertain and inferior character, acting tempo-

rarily, but injuriously, as a result of forcing the natural

functions unnecessarily. One of the most exceptional of

the remedies of known quality and excellence is the ever pleasant Syrup of Figs, manufactured by the California

Fig Syrup Co., which represents the active principles of

plants, known to act most beneficially, in a pleasantsyrup,

in which the wholesome Californian blue figs are used to con-

tribute their rich, yet delicate, fruity flavor. It is the remedy

of all remedies to sweeten and refresh and cleanse the system

gently and naturally, and to assist one in overcoming consti-

pation and the many ills resulting therefrom. Its active princi-

ples and quality are known to physicians generally, and the

remedy has therefore met with their approval, as well as with

of their own personal knowledge and from actual experience

that it is a most excellent fax trive remedy. We do not claim that

There are two classes of purchasers: those who are informed
